<https://galosandovalportfolio.vercel.app>

California, USA

SKILLS

- Programming Languages: TypeScript, JavaScript
- Frontend Development: React.js, HTML, CSS, TailwindCSS
- Agile Methodologies: Scrum, Stand-up Meetings, Continuous Integration
- Problem-Solving: Analytical thinking, creative approach to challenges
- Communication: Effective written and verbal communication skills

EDUCATION

Certificate of Endorsement

Bloom Institute of Technology

2020-2021

Bloom Tech is a 6+ month Computer Science & Software Engineering Academy that provides an immersive hands-on curriculum with a focus on web development.

- Completed an intensive full stack web development and computer science program.
- Approached all coding challenges using pair programming, fostering collaboration and skill development.
- Utilized Git workflow on all projects, ensuring version control and efficient team collaboration.
- Gained hands-on experience with client and server testing, ensuring robust and reliable applications.
- Successfully completed all curriculum coursework, which included in-depth training in React, Redux, Node, Express, Jest, and Python.

INTERESTS

When I'm not coding you'll find me cooking, climbing, making ceramic mugs, or playing flag football.

PROFILE

Experienced software engineer with a background in full stack web development and a proven track record of optimizing systems and delivering impactful solutions. Seeking a software engineering position to leverage my technical expertise, problem-solving skills, and passion for creating engaging entertainment experiences. With a strong foundation in computer science and hands-on experience gained from a comprehensive boot camp program, I am dedicated to contributing to the creation of innovative and user-centric software solutions.

WORK EXPERIENCE

Software Engineer

BrightInsight

Oct 2022 - Present

- Played a key role in enhancing app performance, reducing loading times by up to 100% on critical views.
- Implemented optimizations that significantly improved developer workflows, contributing to streamlined processes.
- Developed widely-used functions, components, and classes that contributed to the robustness of the codebase.
- Collaborated closely with cross-functional teams to ensure seamless integration of new features and improvements.

Frontend Developer

BrightInsight - Contractor

Jan 2022 - Oct 2022

- Contributed to the development of the Disease Management Platform (DMP), a large-scale enterprise platform.
- Documented processes and actively participated in constructing the app from scratch.
- Utilized React, TypeScript, Vite, Vitest, and TailwindCSS to create intuitive and efficient user interfaces.
- Employed Agile practices to compose views, components, and workflows, ensuring rapid and effective development.

Application Developer Apprentice

May 2021 - Feb 2022

IBM

- Led daily stand-up meetings to collaboratively troubleshoot technical issues and ensure project progress.
- Studied and implemented enterprise-level project workflows, incorporating Agile values and DevOps practices.
- Gained a comprehensive understanding of IBM's Hybrid Cloud Services and their implications.

General Manager

Feb 2017 - Mar 2020

Go Get Em Tiger

- Optimized operational systems, enhancing administration and service flow within a high-volume coffee bar.
- Achieved two bonuses through expense reduction strategies that minimized waste and optimized staffing.
- Conducted interviews, made hiring decisions, and provided training for new staff members.
